

Mikhail Yurochkin

✉ moonfolk@umich.edu • 🌐 moonfolk.github.io

Research Interests

Algorithmic Fairness; Out-of-Distribution Generalization; Optimal Transport; Model Fusion and Federated Learning

Education

Ph.D., Statistics 2013 – 2018

University of Michigan, Ann Arbor, MI, United States

- Thesis: “Geometric Inference in Bayesian Hierarchical Models with Applications to Topic Modeling”
- Advisor: Professor XuanLong Nguyen

Master of Arts, Statistics 2013 – 2015

University of Michigan, Ann Arbor, MI, United States

Bachelor's, Applied Mathematics and Physics 2009 – 2013

Moscow Institute of Physics and Technology, Moscow, Russia

Research Experience

Research Staff Member June 2018 – Present

IBM Research and MIT-IBM Watson AI Lab, Cambridge, MA, United States

Machine Learning and Artificial Intelligence research.

- Leading research teams on Algorithmic Fairness, Federated Learning, Out-of-Distribution Generalization, and Optimal Transport projects. Our work is regularly published in top-tier Machine Learning and Artificial Intelligence venues.
- Leading a team of engineers to create AI Fairness software and demonstrations.
- Leading interdisciplinary fairness research collaborations with human-computer interaction and healthcare groups.
- Mentoring graduate students and collaborating with academic research groups, including Yuekai Sun's group at the University of Michigan, Justin Solomon's Geometric Data Processing group at MIT, and Anette (Peko) Hosoi's group at MIT.
- Regularly representing IBM Research at conferences and workshops via invited talks and tutorial presentations.

Research Associate May 2018 – June 2018

University of Michigan, Ann Arbor, MI, United States

- Led two research projects in collaboration with senior PhD students and faculty resulting in two NeurIPS 2018 submissions.
- Studied driving behaviors using Bayesian modeling in collaboration with the Toyota Research Institute.

Data science research intern June 2017 – Aug 2017

Adobe, San Jose, CA, United States

- Proposed a method for jointly training a graph neural network and inferring the graph structure when the graph is unknown. Applied this method to forecasting number of visits to a major retailer's website across cities for improved marketing and sales.

Consultant for Statistics, Computing, and Analytics Research Sept 2016 – Dec 2017

University of Michigan, Ann Arbor, MI, United States

- Assisted faculty and graduate students in areas such as biology, dentistry, marketing, political science, public health, and computer science in identifying and implementing appropriate statistical methodology for their data and research problems.

Science team intern May 2016 – Aug 2016

LogicBlox/Predictix, Atlanta, GA, United States

- Proposed and implemented an explainable forecasting model based on Factorization Machines and Indian Buffet Process. Analyzed sales data from a major retailer using the proposed model and published a NeurIPS 2017 paper based on this work.

Graduate Student Research Assistant July 2014 – April 2018

University of Michigan, Ann Arbor, MI, United States

- Formulated topic modeling as a geometric problem and developed new algorithms significantly outperforming prior state-of-the-art in terms of estimation speed. These results were published at NeurIPS 2016 and 2017.
- Proposed Bayesian modeling approaches to identify insider attacks from SQL queries of a bank database.

Teaching Experience

Guest Lecturer on Fairness in ML @ University of Michigan, Introduction to ML Class

Nov 2022

Graduate Student Instructor

Sept 2013 – April 2016

University of Michigan, Ann Arbor, MI, United States

Taught labs, graded, held office hours:

- Topics in Biostatistics
- Applied Probability
- Introduction to Statistics
- Introduction to Probability

Jan 2015 – April 2016

Sept 2014 – Dec 2014

Jan 2014 – April 2014

Sept 2013 – Dec 2013

Talks

Tutorials	
o AI Fairness through Robustness @ AAAI	2023
o Fairness of Machine Learning in Search Engines @ CIKM	2022
o AI Fairness @ MIT-IBM THINK Industry Day	2022
Invited Talks	
o Practical Individual Fairness @ TrustML Young Scientist Seminars	2022
o Black Loans Matter: Fighting Bias for AI Fairness in Lending @ KDD Workshop on Machine Learning in Finance (Keynote)	2021
o Model fusion via single-round FL @ Enterprise-Strength Federated Learning, ICML Expo	2021
o Practical Individual Fairness algorithms @ Toronto Machine Learning Summit	2021
@ ODSC West	2021
@ Foundations of Algorithmic Fairness (FAF) workshop	2021
@ Research Talks for Enel	2021
@ IBM Research, Cambridge Lab All-hands	2021
o Fusion of Heterogeneous Models in Federated Learning @ The 2nd Annual Federated & Distributed/ Decentralized Machine Learning Conference	2021

○ Federated Learning: Practice and Modern Algorithms @ ODSC Europe	2021
○ Invited panelist @ Federated Learning, AI and Data Security Summit, HUB Security event	2021
○ Fairness in mortgage lending @ Tech for Racial and Social Justice, UW-Madison Data Science Bazaar	2021
○ Individual Fairness through Robustness @ Algorithmic fairness with statistical guarantees, CMStatistics session	2020
@ Global Data Science Community meet-up, UniCredit event	2020
○ Fairness in AI @ What's Next in AI: AI we can trust, MIT-IBM conference	2020
○ Bayesian nonparametric fusion of heterogeneous models @ IBM Research Cambridge seminar series	2019
○ Geometric Inference in Bayesian Hierarchical Models with Applications to Topic Modeling @ MIT Geometric Data Processing Group seminar	2018

Contributed Presentations.....

○ Data Science Research Forum (poster)	2017
○ Joint Statistical Meetings (speed session talk and poster)	2017
○ Michigan Student Symposium for Interdisciplinary Statistical Sciences (talk)	2017
○ Michigan Institute for Computational Discovery and Engineering Symposium (poster)	2016
○ Michigan Student Symposium for Interdisciplinary Statistical Sciences (poster)	2016
○ From Industrial Statistics to Data Science (poster)	2015

Awards

○ Outstanding Technical Achievement Award (IBM internal)	2021
○ EB1 Green Card (outstanding professor or researcher)	2021
○ A-level Research Accomplishment (IBM internal)	2020
○ Faces of IBM: AI Pioneer (IBM internal)	2020
○ Outstanding Demonstration - Honorable Mention award	NeurIPS 2020
○ Reviewer award	NeurIPS 2018, 2019
○ Rackham Conference Travel Grant	2016, 2017
○ Abramov scholarship (awarded to less than 5% students at MIPT)	2010

Mentorship

○ Break Through Tech AI (BTAI) @ MIT, Project Advisor for a group of six students	2022-Present
○ Hao Bang (Kevin) Yang, MIT Master's of Engineering (MEng) student	2022-Present
○ Yuchen Zeng, MIT-IBM summer PhD student intern	2022
○ Subha Maity, IBM Research Tech for Justice summer PhD student intern	2022
○ Lilian Ngweta, IBM Research summer PhD student extern	2022
○ Todd Zhou, Research Science Institute (RSI) high school student	2022
○ Luann Jung, MIT Master's of Engineering (MEng) student (with J. Solomon)	2021-2022
○ Yining Chen, MIT-IBM summer PhD student intern	2021
○ Haingoharijao Faniriniaina Ramandiamanana, African Master's in Machine Intelligence (AMMI) student (with J. Solomon and D. Palmer)	2020
○ Debarghya Mukherjee, MIT-IBM summer PhD student intern	2020
○ Hongyi Wang, IBM Research summer PhD student intern	2019

Professional Activities

Organization and Service.....

- o Practical Bayesian Methods for Big Data and Big Models workshop (co-organizer)
@ MIT-IBM AI week 2019
- o Optimal Transport seminar (with Y. Mroueh)
@ IBM Research AI seminar series 2019

Reviewer.....
